

# TME Mobile Library

## Books on Wheels, Coming Your Way!

Dear Parents/Guardians,

At times like these, when COVID- 19 Corona Virus has hit our planet, anxiety and uncertainty abound, we at The Millennium Education aim to provide reassurance to our parental body that learning of their child will not discontinue.

Being an educational institution, the safety of our student community is of our prime importance.

We are committed to assuring the learning of our student's through Connecting Classrooms/Learning Management System. Moving one step ahead to ensure the academic continuity and best utilization of this time by millennials, we have launched the, "TME Mobile Library".

Mobile Library is the initiative of TME Reading and Library Programme to promote the development of independent learning, skills and foster the love and enjoyment of reading at home. Its aim is to present your children with books at your door step while we are going through this unprecedented global crises. It will not only inculcate the habit of reading but will also enhance their knowledge. It will assist in accelerating their learning and enable them to access a new level of knowledge and boost their confidence and self-belief.

Kindly encourage your child to read the book that they have received. Our learners are required to;

1. Establish a proper reading routine.
2. Reread the words for building fluency.
3. Make a booklet of difficult words and search for their meanings.
4. Make important notes of the chapters.
5. Write a review of the book with illustrations.

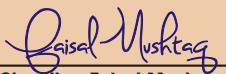

Learners can share the above information with their teachers once the school shall commence.

We need your support so we can keep on delivering quality education to our learners at this crucial time.

Thank you, together we can beat the pandemic.
